Windy's sale is finally done. The sale officially ended today, December 15th, and according to Facebook, there are no more prices to be had, at least at retail. Luckily we can still order Windy's right from Arcangels.

All of that translates to a purchase of Windy for just €30 (\$35). At the moment the sale is only available to personal customers, but MasaGondo is working on an application to make it easier to buy from the Massdrop site, so hopefully it'll be available in the near future.

Pocky's GOTY Super Action Brawler is up for grabs at McDrops for \$12. The promotion is limited to one purchase per person, and no money will be added to your credit card. If you don't have an McDrop account, you can still pay for the game at the shop, but clicking the "buy now"
