What's new:

The Thunderhorse is a locally developed action RPG for the Nintendo Switch. Become an amnesic warrior who was rejected by the town after the attack by the demons and find your true name. Set out alone, as an unnamed adventurer, to uncover the circumstances behind the attack, and seek the truth behind the assassination plot. In this action RPG, an elemental combat system using the Nintendo Switch's motion controls lets you immerse yourself in the sensation of battling while being called to perform critical actions.

A man has been haunted by his past for a decade. He possesses no memories save a single, tragic image: that of his death in the woods. Losing himself through normality, he had lost his way...

In But What Was I Thinking?!, author Darkmind_82 invites us to join Hellslinger in his time of torment. The story begins with Hellslinger locked within a situation that he is pretty comfortable with. For 10 years he has kept to himself, using his dog-like demeanor, voice, and style to hide his identity. However, one moment changes everything. On his way to meet her spouse for a business meeting, Hellslinger's demeanor shifts after an experience he had. Unable to recall his old self, Hellslinger begins to search for answers

to a predicament that only exists in his mind.

Following the mystery that unfolds in this book, we are on the lookout for other tales from the same author. They are self-contained stories that delve into the ever-bizarre mind of Darkmind_82.

System Requirements For Elden Ring:

This mod works in conjunction with Oldrim and Bloodmoon. As mentioned in the description, Oldrim adds a lot of content to your server including a script that will prevent others from starting such mods. If you intend to use this mod along with other mods, you will likely need to have Oldrim installed. As for other requirements, this mod requires 3 files which are "Bib'ing your Tauren" by Vutu, "High Intelligence Tauren" by Zukaor, and "Troll Bosses" by Alteo.
